

OUTDOOR VISUAL PERFORMANCE® EXTREME

VPXT6

Overview

Sonance Visual Performance Extreme speakers are the perfect choice for the most demanding environments. The VP Extreme line combines best-in-class audio performance with a new grille retention system that ensures the grille holds securely in place. They are built to withstand extreme temperatures from -30°F to +175°F (34°C to +79°C) and conform to Military Standard 810G and IP-66 ratings making them the ideal solution for bathrooms, patios and marine environments.

Key Features

Aesthetics

- Elegant, sleek appearance disappears into any space
- Paintable grille to match surroundings

Performance

- Developed using cutting edge design and computer modeling software
- Consistent tonality across all listening levels
- Clear and natural treble
- High excursion polypropylene/graphite woofer produces smooth effortless bass

Installation

- One-piece powder coated stainless steel grille
- Simplified single-step grille painting process
- Two-piece Roto-Lock® toggle feet
- New XPC Grille Retention Technology® ensures the grille holds securely in place

Environmental

- Environmental Temperature: -30°F to +175°F (34°C to +79°C)
- Conforms to Military Standard 810G for humidity, salt spray, temperature and UV
- IP-66 rating for protection against heavy seas and powerful jets of water
